Notes

Spooky Slick prompt: Undead Mates! This can work as a sequel to the last a/b/o vampire fic. Enjoy!

They've been together for a while now. Will never had problems with the fact that Hannibal was a vampire. Will himself was a killer, a human one, but a killer nonetheless. This was one of the several motives of why they were a perfect match, he liked to think.

Will would always lure their prey to the house, where Hannibal would finally have his feast, then, Will was free to do whatever he'd like to do with their victim. His favorite thing was to torture before killing. And then, Hannibal would find use for the remains of the unfortunate person. A perfect match. Hannibal felt surprised - though, he shouldn't, considering the circumstances - when Will asked him to turn him.

Of course, Will wanted immortality, he wanted the power, he wanted to be like Hannibal, but, above all things, he wanted to be with Hannibal forever. And, as much as Hannibal wanted to be with Will for the rest of his endless life, he didn't want to turn Will to a monster, a monster like him.

"I'm already a monster", Will said once, resting his head on Hannibal's chest after making love. Hannibal frowned, and Will smiled. "I'm not sad. That's who I am. Besides, I don't think I can save myself. Maybe that's just fine."

After hearing those words, Hannibal decided. They would be together forever.

It happened during sex, Hannibal was pounding into Will from behind, holding Will's hips, keeping him on fours. Hannibal knotted him, embracing his body, hearing Will's melodious loud moans as he was being filled completely.

"Please", Will begged, almost crying, "please, now". Hannibal could no longer deny.

He bit Will's neck, holding him firmer, trapping him with his strong arms. Will cried out, his body becoming soft, weak. Hannibal sucked his blood, his knot still inside, until the blood started to drip from his mouth, sliding through Will's shoulder. Will didn't move or make any sound besides little breath noises, and Hannibal stopped. He finally pulled out from Will, his cum mixed with Will's slick leaking from the omega's hole, and he turned Will to him, holding his fragile body in his arms.

Hannibal, then, bit his own wrist, letting blood drops fall on Will's half opened mouth. At first, Will didn't do anything, but suddenly, he grabbed Hannibal's wrist, starting to lick. When he realized, he was already sucking, drinking Hannibal's powerful blood.

After a while, when Hannibal began to feel tired, Will stopped, staying still on Hannibal's arms. It was happening. He was feeling something changing inside him.

"Give that a moment", Hannibal said, kissing Will's head and leaving a blood stain. Will gave him a weak smile.

"I'm dying", he whispered.

“You’re being born to a new life. With me.”

“We’ll be bound forever."

Hannibal kissed Will’s lips, and then waited for the process to end. What a couple of monsters. Now, undead for the world, alive for the darkness.
